Road Symbiosis

Our Symbiosis with the Road comes from over 50 years of experience in rubber manufacturing.

Following the human evolution process we provided shoes in the very beginning, then moving on and creating bicycle tires and tubes.

Deli Tires manufactures a wide range of the tire products, from wheelbarrows tires to high performance car tires.

That's why we are the human motion technology experts. To seek the perfect journey you only need the perfect companion. You choose the destination, we take care of how to get you there. Safe and quickly.

No matter which path you choose or the conditions you face, we will always be there, supporting you.

Safe and save

Road can be control by you.
Take your chance to get the full power and safety from
your bike through our tires.

Auto Sealant Tube

Auto Sealant Tube is our latest technology that allows riders to continue their race even after the tire has been punctured by an external object. Auto Sealant Tube symbol will be used to identify all Deli Tire products featuring this new technology.

- 1  Tire is fitted with inner tube with prefilled sealant gel.
- 2  When puncture occurred on the tire/tube, the Sealant Gel gets seeps out to the damage area and seals the leak.
- 3  In the case external object is extracted from the tire, the gel will seal the hole itself without affecting the tire performance.

Choose the technology according to your needs

PRBB

Puncture Resistance Breaker Belt

High Quality Compound combination: Tread compound designed for good balance of wear resistance and grip in wet and dry conditions, a long lasting layer for perfect road contact. Extremely tough rubber layer at the base of the tread improves stability and manoeuvrability, reducing rolling resistance and providing puncture resistance.

High strength nylon fabric casing plies to support load and pressure.
High tensile bead wire to ensure safety when carrying a heavy load.

HRPR

Hard Rubber Puncture Resistance

Hard Rubber Puncture Resistance is a Deli Tire Technology, designed to improve durability. With a protective layer under the tread to protect tire/tube from puncture and damages providing a more confident and safer ride.

UPP

Ultimate Puncture Protection

Deli UPP tire technology is our latest anti-damage innovation with extra-thick 7.5 mm flexigum under the tread plus one breaker layer providing maximum puncture protection.

Rugged Adventure

SA-296

The Rugged Adventure is the tire with the most grip in our range of bicycle tire. Its designed to provide maximum traction and great cushioning on impact in technical terrain. The tall 6 mm center knobs also dig deep into dirt or mud.

CHOOSE YOUR CONSTRUCTION ACCORDING TO YOUR NEEDS

LIGHT CONSTRUCTION

Best for XC & Light Trail

Ideal for XC and Light Trail riding, the Light construction features a lightweight casing developed to optimize rolling resistance. It has great durability and still provides sidewall cut protection where it is most needed

ALL-ROUND CONSTRUCTION

Best for Trail & Enduro

Ideal for Trail & Enduro disciplines, the All-Round construction incorporates our advanced technology to offer the best balance between grip and rolling resistance, as well as durability and protection.

REINFORCED CONSTRUCTION

Best for Enduro & Gravity

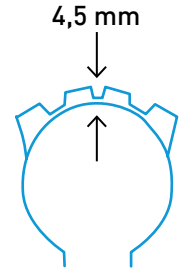

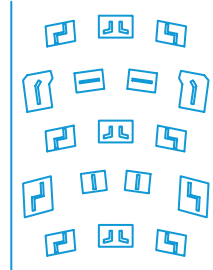

Ideal for Enduro & Gravity disciplines, the Reinforced construction incorporates our best technology to offer you maximum grip and protection while still maintaining a competitive weight.

STEADY ADVENTURE

The Steady Adventure tire is designed for mixed terrain conditions.

Its more rounded profile allows fast rolling and predictable handling.

The 4.5 mm medium height knobs provide sufficient traction for any riding adventure.

E-Bike without compromise

**E-Bike tires are our answer to the question
«Which DeliTire tires are best for E-bikes?»**

**Grip, stability, puncture protection, braking and low
rolling resistance.**

These are our needs.

Reliability on Top

**Deli Tire e-bike ready are suitable to be equipped on pedelec, built for prolonged
application on the ground even at higher speed.**

**Pedelec is the latest innovation in the cycling business, an ideal environmental friendly vehicle for
short to medium commuting.**

Deli Tire propose a range of high quality tires specifically designed for E-bikes.

City, Trekking & Urban

Light Up the city

There are trails that are part of your life, belonging to places that you find day after day. In those places you know that a hello is never denied.

No matter what weather or what kind of trail you daily face, ride safely in the city by choosing Deli Tire products.

REFLECTIVE _____

Safe with Reflective lines

We provide RL technology for each product upon request. Tires with Reflective Lines* make cyclists highly visible when illuminated, a perfect solution as a replacement for wheel reflectors.

ECE-R88
CERTIFICATION

RELIABILITY _____

Avoid Punctures

Modern cities are full of obstacles, some of our bicycle's worst enemies are pieces of glass, nails and screws forgotten on the road.

Deli Tire provides a list of antipuncture technologies available upon request. Do not miss your next appointment, think it now and choose Deli Tire.

DELI-VERY

SA-318

Specially designed to carry higher load for cargo bike. With stronger double layers carcass technology and aesthetic tread and sidewall appearance provide a comfortable ride. This tire has also certified with European Standard and available in Reflective type.

Stroller & Wheelchair

Get out help

Deli Tire think about every single needs. From the wheelchair to the stroller, we cover as much tire uses as we can, helping people to travel.

WHEELCHAIR

Helping everybody

Also wheelchairs need comfort and performance in terms of all day life. We are focused on helping all people that need specific products, offering them only the best.

Durability is an other aspect of the life of your stroller, the safety and the comfort for your baby is our priority.
